The test results apply only to the test items described in the report. No responsibility is accepted for the validity of the results if any data or information provided by the customer may affect them. Data provided by the customer are clearly identified. The laboratory assumes no responsibility for the sampling including minimum quantities unless it was carried out by samplers from a company within the GBA Group or on its behalf. In this case, the results apply to the sample as received. The test report may not be published or reproduced, in whole or in part, without the written consent of the issuing company. The general terms and conditions are available at <https://www.gba-group.com/en/general-terms-and-conditions/>.

Test Results

Chemical/Physical Test	Result	Unit	Declaration	± MU	MU[%]	MU Source
Ascorbic acid	97,5	g/100 g	100	20	20	I

Assessment:

Result of ascorbic acid analysis meets the details of the nutrition labelling regarding the tests carried out (cf. Guidance document of the EU Commission with regard to the setting of tolerances for nutrient values declared on a label in food supplements from December 2012).

Hamburg, 29.07.2026

This test report is done automatically and is valid without signature.

Methods

Parameter	Method	DR
Ascorbic acid	HH-MA-M 02-007: 2019-12 ^a ₀	z

The methods marked with ^a are accredited methods of the performing laboratory.

Testing laboratory: oGBA Hamburg

MU-Source:

I: According to DIN ISO 11352 as expanded, combined measurement uncertainty with $k = 2$ (95 %), sampling not included

Decision rules:

z: In conformity assessment, measurement uncertainty is disregarded and serves as informational data only.
